Speakers

Chair > Peter Harrison

Peter is head of the Personal Injury and Professional Negligence Group at SJB. He has extensive experience in relation to product liability, personal injury insurance and professional negligence, instructed by Claimants and Defendants in broadly equal measure. He also undertakes corporate defence work in HSE prosecutions attending hearings at both magistrates and crown court level. He has a particular interest in Motor Sport injury claims. He is recommended by Legal 500 as a Leading Junior

Matthew Mawdsley

Matthew is an experienced personal injury practitioner who acts for both Claimants and Defendants covering all aspects of personal injury claims. Matthew is regularly instructed by a number of Local Authorities and provides advisory and advocacy services on a whole range of issues (failing to educate, "tripping", public liability and accident at work etc). Matthew is also a member of the Standing Conference of Mediation Advocates and can therefore offer clients an alternative means of resolving disputes.

Daniel Frieze

Daniel is a specialist in the areas of personal injury and clinical negligence having undertaken work at the highest level on behalf of large insurers and Claimants alike. He has particular expertise in respect of complex liability, causation and medical issues and is regularly instructed in high value claims relating to psychiatric injury and allegations of chronic pain syndrome.

John Ratledge

Noted in the Legal 500 [2010] as "quick to pick up on issues and impressive on his feet", John regularly advises and appears at all stages of fast and multi-track claims for both Claimants and Defendants in the county court and high court. John is an expert in cases arising out of road traffic accidents, with a particular interest in LVI, Fraud and Bogus Passenger claims. In addition, John's practice covers employers liability, along with child and highways claims.
